## 7. Description

The unnamed house at 606 1<sup>st</sup> Ave SW is estimated to have been constructed in 1913 according to the Bremer County Assessor's records. However, it was not listed in the 1913 city directory and property transfer records provide a confusing ownership record. Its design is nearly identical to the Saylor House next door at 602 1<sup>st</sup> Ave SW suggesting that it was under construction at the same time in 1915 or slightly later. Therefore a more likely construction date is ca. 1915.

The house at 602 1<sup>st</sup> Ave SW is an example of a vernacular Front-Gabled Roof, 2-Story house form sometimes referred to as a "Suburban Cottage." The form is distinguished by the full 2-story height and broad pent gable peak in the front-gable. The house has a rock-faced concrete block foundation with wide clapboard-style aluminum siding on the walls. The broad front-gabled roof has a single gabled attic dormer on the west slope. The roof's wide eaves have no ornamentation. A low-pitched hipped roof spans the enclosed front porch with the walls now clad in siding to match the house and three battered piers resting on 1/1 windows installed above the balustrade line. The entrance steps are on the left half opposite the front entrance and the skirting area is now filled with concrete block.

Fenestration includes single and paired 1/1 double-hung windows of various sizes. The horizontal group of three sashes in the gable peak is original and similar to the gable peak opening window group for the house next door making it likely that both were original window groups. The house has a front-gable roofed garage at the northeast corner. The detached garage was built at an unknown date.

## 8. Significance

The house at 606 1<sup>st</sup> Ave SW derives significance as a contributing resource in the Sturdevant SW Historic District, which qualifies for the National Register under both Criteria A (Community Development) and C (Architecture). The garage is considered non-contributing. The historic district is a well-preserved collection of mid and late 19th century and early 20th century architectural styles and vernacular house forms located in Waverly's southwest residential neighborhood. The neighborhood developed as a middle class and working class residential district from the late 1850s through the mid-20th century.

### *Historical Background for Waverly<sup>1</sup>*

Waverly was established in 1853 along the Cedar River in Waverly Township located in southeastern Bremer County. It was designated as the county seat for Bremer County the same year that the county was officially organized and was formally incorporated in 1859. Like most Iowa towns established before the Civil War, growth during the early 1860s was deferred until after the war came to a close. Waverly's first railroad, the Cedar Falls and Minnesota Railroad was extended to Waverly in 1864. Eventually track was also laid for other branch lines and an electric interurban. By 1917 track for branch lines was absorbed by the Chicago and Great Western Railroad and the Chicago, Rock Island and Pacific Railroad. Track for the electric interurban – the Waterloo, Cedar Falls, and Northern – was laid in 1910 but usage was never as substantial as predicted.

Waverly grew in the manner typical of other Iowa county seats in the late 19<sup>th</sup> and early 20<sup>th</sup> century. Its commercial center extended along the east-west route of Bremer Avenue on both sides of the Bremer Avenue Bridge that crossed the L-shaped course of the Cedar River as it passed through the center of town. The county courthouse was located outside of the commercial area on a slight prominence at the east end of Bremer Avenue. Residential districts grew up in the four quadrants formed by the intersecting main street and river. The broad, generally flat profile of both the business district and early residential neighborhoods saw the regular occurrence of flooding resulting in the gradual replacement of most first generation frame building stock. German immigrants were among the largest ethnic group to populate Waverly during the 19<sup>th</sup> century establishing religious institutions with ethnic affiliations such as St. Paul's Lutheran Church in the northwest quadrant, St. Mary's Roman Catholic Church in southeast quadrant, and the German Methodist Church.

Bremer County and its county seat of Waverly prospered during the late 19<sup>th</sup> and early 20<sup>th</sup> century becoming a retail and professional services center for Bremer County and sections of adjacent Butler County. The county's standing as the "Dairy Spot of Iowa," gave rise to a number of dairy industries including a manufacturing plant operated by the Carnation Milk Products Company for the production of condensed milk in the 1920s. Population stood at 16,300 people in 1900 before the growth rate slowed before World War I. By 1930 population topped 17,000. Expansion of a Lutheran seminary in Waverly first located in the community in 1879 through the relocation of Wartburg College to the community in 1939 was a cultural and economic stimulus for the community. Waverly continued to add a 1,000 people per decade until 1950 when the post-War boom saw growth accelerate to more than 21,000 by 1960. During the past 50 years population has slowed somewhat topping out at 23,325 in 2000.

### *Historical Background for the Unnamed House at 606 1<sup>st</sup> Ave SW*

The Saylor House is located in the southwest quadrant of Waverly that includes additions platted by early Waverly settlers, Ira Sturdevant and his son William Sturdevant. The Sturdevant family moved to the unsettled area along the Cedar River in the mid-1850s. Ira received a 40-acre federal land grant based on his military service in the War of 1812. William acquired 80 acres of adjoining land to the north of his father's 40-acre parcel. In 1857 the William Sturdevant's Addition was laid out and in 1860 the Ira Sturdevant Addition was platted. Growth remained relatively slow in these subdivisions until after the Civil War.

The house at 606 1<sup>st</sup> Ave SW is estimated to have been constructed in 1913 according to the Bremer County Assessor's records. However, it was not listed in the 1913 city directory. Its nearly identical design to the Saylor House next door at 602 1<sup>st</sup> Ave SW suggest it may not have been under construction until late 1915 when the house for was being built for W.W. Saylor. Therefore a more likely construction date is ca. 1915.

The first owners of the house at 606 1<sup>st</sup> Ave NW were Joseph and Ellen Harvey who acquired the property on 9/2/1945. The Harvey family retained the house until 1978 when Leo J. Harvey transferred the house to Lauren and Evelyn Wedeling. They retained it until 1993.
