7. Description

The Wendt-Schultz House at 221 2nd Ave SW is estimated to have been constructed in 1898 according to the Bremer County Assessor's records. A footprint for what appears to be an earlier, smaller house at this site is present on the 1894 Sanborn Map. On 2/28/1899 Lot 4 passed to Sophia Sundermeier. Over the next ten months, her husband Chris Sundermeier is listed in three news accounts related to the construction of a house in the Third Ward believed to be this house. In 1901 Sophia sold the lot to the Jochim Wendt who with his family, were likely the first residents of this house. In 1911 Jochim passed away and his heirs transferred the house to Anna and William Schultz on 2/29/1912. The 1913 city directory confirms the Schultz family occupying the house.

The Wendt-Schultz House is an example of the vernacular Cross Gabled 2-Story house form with an irregular "+" shaped floor plan. The house has a stone block foundation with asbestos shingle (Transite®) siding on the walls. The house has a moderate to steeply pitched intersecting gabled roof and medium-width eaves. The rear half of the house has a hipped roof with a flat peak and with projecting gable sections. Gabled wall dormers are located on the east and west slopes of the projecting front wing. A hipped roof porch wraps the front facade and right-hand ell. The original porch posts and balustrade have been replaced with square posts and closely spaced square spindles. The original skirting panels have been replaced with diagonal lattice sheeting panels. The rear has a shed-roofed stoop at the southwest corner and a slightly larger rear porch tucked in the southeast ell.

Fenestration includes a mix of double-hung windows of various sizes and configurations in singles and pairs. The most decorative window is a cottage window on the gabled front, lower level east of the entrance. It has a large single-light for the lower sash and a short horizontal sash with a perimeter of square and rectangular art glass lights. The front door shares some of the same geometric pattern work and art glass. Several single light vertical windows along the west façade delineate the landings of the rear staircase.

The house has a detached frame garage built in 1963 located at the southwest corner of the lot. It has a low-pitched side-gabled roof with no eaves and narrow vertical bead board siding. The twin bays have separate doors and small 1/1 double-hung windows are in the gabled ends.

8. Significance

The Wendt-Schultz House at 221 2nd Ave SW derives significance as contributing resources in the Sturdevant SW Historic District under both Criteria A (Community Development) and C (Architecture). The historic district qualifies for the National Register of Historic Places as a well-preserved collection of mid and late 19th century and early 20th century architectural styles and vernacular house forms located in Waverly's southwest residential neighborhood. The neighborhood developed as a middle class and working class residential district from the late 1850s through the mid-20th century. The detached garage is considered a non-contributing structure.

Historical Background for Waverly¹

Waverly was established in 1853 along the Cedar River in Waverly Township located in southeastern Bremer County. It was designated as the county seat for Bremer County the same year that the county was officially organized and was formally incorporated in 1859. Like most Iowa towns established before the Civil War, growth during the early 1860s was deferred until after the war came to a close. Waverly's first railroad, the Cedar Falls and Minnesota Railroad was extended to Waverly in 1864. Eventually track was also laid for other branch lines and an electric interurban. By 1917 track for branch lines was absorbed by the Chicago and Great Western Railroad and the Chicago, Rock Island and Pacific Railroad. Track for the electric interurban – the Waterloo, Cedar Falls, and Northern – was laid in 1910 but usage was never as substantial as predicted.

Waverly grew in the manner typical of other Iowa county seats in the late 19th and early 20th century. Its commercial center extended along the east-west route of Bremer Avenue on both sides of the Bremer Avenue Bridge that crossed the L-shaped course of the Cedar River as it passed through the center of town. The county courthouse was located outside of the commercial area on a slight prominence at the east end of Bremer Avenue. Residential districts grew up in the four quadrants formed by the intersecting main street and river. The broad, generally flat profile of both the business district and early residential neighborhoods saw the regular occurrence of flooding resulting in the gradual replacement of most first generation frame building stock. German immigrants were among the largest ethnic group to populate Waverly during the 19th century establishing religious institutions with ethnic affiliations such as St. Paul's Lutheran Church in the northwest quadrant, St. Mary's Roman Catholic Church in southeast quadrant, and the German Methodist Church.

Bremer County and its county seat of Waverly prospered during the late 19th and early 20th century becoming a retail and professional services center for Bremer County and sections of adjacent Butler County. The county's standing as the "Dairy Spot of Iowa," gave rise to a number of dairy industries including a manufacturing plant operated by the Carnation Milk Products Company for the production of condensed milk in the 1920s. Population stood at 16,300 people in 1900 before the growth rate slowed before World War I. By 1930 population topped 17,000. Expansion of a Lutheran seminary in Waverly first located in the community in 1879 through the relocation of Wartburg College to the community in 1939 was a cultural and economic stimulus for the community. Waverly continued to add a 1,000 people per decade until 1950 when the post-War boom saw growth accelerate to more than 21,000 by 1960. During the past 50 years population has slowed somewhat topping out at 23,325 in 2000.

Historical Background for the Wendt-Schultz House at 221 2nd Ave SW

The Wendt-Schultz House is located in the southwest quadrant of Waverly that includes additions platted by early Waverly settlers, Ira Sturdevant and his son William Sturdevant. The Sturdevant family moved to the unsettled area along the Cedar River in the mid-1850s. Ira received a 40-acre federal land grant based on his military service in the War of 1812. William acquired 80 acres of adjoining land to the north of his father's 40-acre parcel. In 1857 the William Sturdevant's Addition was laid out and in 1860 the Ira Sturdevant Addition was platted. Growth remained relatively slow in these subdivisions until after the Civil War.

The house at 221 2nd Ave SW is estimated to have been constructed in 1898 according to the Bremer County Assessor's records. As was noted above, this house appears to be the second house on this lot that was present on the 1894 Sanborn Map. On 2/28/1899 Lot 4 passed to Sophia Sundermeier. Over the next ten months, her husband Chris Sundermeier is listed in three news accounts related to the construction of a house in the Third Ward believed to be this house - 12/13/1899, 4/13/1899, and 8/31/1899 all in the Bremer County Independent. In 1901 Sophia sold the lot still held in her name to the Jochim Wendt who with his wife Maria and family, appear to be the first residents of this house. No occupation has been identified for Jochim Wendt. In 1911 Jochim passed away and his heirs transferred the house to Anna and William Schultz on 2/29/1912. The 1913 city directory confirms the Schultz family occupying the house. Will worked as a clerk at Schell's Grocery at the time.
