Fritz, William F. and Adelia, House	Bremer
Name of Property	County
209 3 rd Ave SW	City

7. Description

The William F. and Adelia Fritz House at 209 3rd Ave SW is estimated to have been constructed in 1930 according to the Bremer County Assessor's records. However, the house appears on the 1894 Sanborn Map. In 1899 the owner of record at the time, William F. Fritz, was residing a block further to the west, but in 1913 the city director shows his family at 209 W. Madison (209 3rd Ave SW). A revised date of construction is ca. 1894 when the house was known to be in place based on the published Sanborn Map for that year.

The Fritz House is an example of a vernacular Hipped Roof, 1-Story rectangular house form with compound hipped roof wings of differing heights. The house has a stone and parged stone foundation with diagonal lattice panels installed on the exterior. The west wing remains undated as does the enclosure of the hipped roof front porch. The house has a low-pitched roof with shallow eaves and no ornamentation. A slightly taller wing extends to the southwest and the porch has now been enclosed in the original left-hand ell space and a small, hipped roof portico is centered on the left half of the front façade. It has square wood columns. The house now has narrow, clapboard style vinyl siding on the walls. Large 1/1 double-hung windows flank the centered entrance in the enclosed porch section with smaller, narrower 1/1 double-hung windows in the west wing. Fenestration elsewhere includes single 1/1 double-hung windows of various sizes. A detached double-bay garage built in 2013 south of the house has a broad front-gable roof. The garage is clad in matching vinyl siding and opens onto the alley.

8. Significance

The William F. and Adelia Fritz House at 209 3rd Ave SW derives significance as a contributing resource in the Sturdevant SW Historic District, which qualifies for the National Register under Criteria A (Community Development) and C (Architecture). Despite alterations made in the late-20th century, the house retains its basic form. The historic district is a well-preserved collection of mid and late 19th century and early 20th century architectural styles and vernacular house forms located in Waverly's southwest residential neighborhood. The neighborhood developed as a middle class and working class residential district from the late 1850s through the mid-20th century. The garage is considered noncontributing.

Historical Background for Waverly¹

Waverly was established in 1853 along the Cedar River in Waverly Township located in southeastern Bremer County. It was designated as the county seat for Bremer County the same year that the county was officially organized and was formally incorporated in 1859. Like most Iowa towns established before the Civil War, growth during the early 1860s was deferred until after the war came to a close. Waverly's first railroad, the Cedar Falls and Minnesota Railroad was extended to Waverly in 1864. Eventually track was also laid for other branch lines and an electric interurban. By 1917 track for branch lines was absorbed by the Chicago and Great Western Railroad and the Chicago, Rock Island and Pacific Railroad. Track for the electric interurban – the Waterloo, Cedar Falls, and Northern – was laid in 1910 but usage was never as substantial as predicted.

¹ The historical background information is largely drawn from the *Waverly, Iowa: An Architectural Heritage*, (Waverly, Iowa: City of Waverly), 1977.

Waverly grew in the manner typical of other Iowa county seats in the late 19th and early 20th century. Its commercial center extended along the east-west route of Bremer Avenue on both sides of the Bremer Avenue Bridge that crossed the L-shaped course of the Cedar River as it passed through the center of town. The county courthouse was located outside of the commercial area on a slight prominence at the east end of Bremer Avenue. Residential districts grew up in the four quadrants formed by the intersecting main street and river. The broad, generally flat profile of both the business district and early residential neighborhoods saw the regular occurrence of flooding resulting in the gradual replacement of most first generation frame building stock. German immigrants were among the largest ethnic group to populate Waverly during the 19th century establishing religious institutions with ethnic affiliations such as St. Paul's Lutheran Church in the northwest quadrant, St. Mary's Roman Catholic Church in southeast quadrant, and the German Methodist Church.

Bremer County and its county seat of Waverly prospered during the late 19th and early 20th century becoming a retail and professional services center for Bremer County and sections of adjacent Butler County. The county's standing as the "Dairy Spot of Iowa," gave rise to a number of dairy industries including a manufacturing plant operated by the Carnation Milk Products Company for the production of condensed milk in the 1920s. Population stood at 16,300 people in 1900 before the growth rate slowed before World War I. By 1930 population topped 17,000. Expansion of a Lutheran seminary in Waverly first located in the community in 1879 through the relocation of Wartburg College to the community in 1939 was a cultural and economic stimulus for the community. Waverly continued to add a 1,000 people per decade until 1950 when the post-War boom saw growth accelerate to more than 21,000 by 1960. During the past 50 years population has slowed somewhat topping out at 23,325 in 2000.

Historical Background for the William F. and Adelia Fritz House at 209 3rd Ave SW:

The William F. and Adelia Fritz House is located in the southwest quadrant of Waverly that includes additions platted by early Waverly settlers, Ira Sturdevant and his son William Sturdevant. The Sturdevant family moved to the unsettled area along the Cedar River in the mid-1850s. Ira received a 40-acre federal land grant based on his military service in the War of 1812. William acquired 80 acres of adjoining land to the north of his father's 40-acre parcel. In 1857 the William Sturdevant's Addition was laid out and in 1860 the Ira Sturdevant Addition was platted. Growth remained relatively slow in these subdivisions until after the Civil War.

The Fritz House was constructed in ca. 1894 perhaps while the property was owned by Katie Hodges. She sold the parcel to William F. Fritz in 1896 or 1906. The William and Adelia were documented as residing here by 1913 when the city directory that year shows William, a grocer, and his family living here. Fritz & Co. was located at 100 W. Bremer several blocks to the north and was one of eight grocery stores in the downtown at the time including three on West Bremer Ave. The couple's daughter, Doris Fritz, worked as a school teacher in 1913. Property transfer records do not record the house changing hands again until 2/6/1935 when Doris Starr (likely Doris Fritz) and her husband sold the house to Ernest and Olinda Baker in 9/23/1946.
