Waverly Monthly Minute

Places to PLAY

Cedar River Park

"Rounding 3rd and heading for home"

Waverly's new baseball and softball facility is almost complete! The final phase of the project will include dugouts, restrooms, concessions and an inclusive playground.

The City of Waverly and the Cedar River Park committee are extremely grateful for the collaborations with many generous donors in and around Waverly that have helped bring this project to fruition.

Donations are still needed and welcome as we see this project to its finish. The final donations will go towards dugouts, bathrooms, and concessions.

To help get us closer to kids playing on the fields, donations can be made at

Waverly Rugby Field Goal Posts Get New Paint Thanks to a Grant from Paint Iowa Beautiful

Diamond Vogel Paint sponsors the "Paint Iowa Beautiful" grant each year. The Waverly Leisure Services Parks department received a grant this year for painting the Waverly Rugby Field Goal Posts. The photos are of the goal posts before and after the fresh coat of paint.

We are grateful for grant programs such as this from Diamond Vogel to help complete projects within the City of Waverly.

MEET JERRY HANKNER

Jerry and his wife Kathy moved to Waverly from Cedar Falls in 2009.

He is retired after working with GE for 40 years. They have two children, three grand children, and a fourth on the way. Jerry has served as a member of the Golf Commission since 2019. His favorite aspect on the Commission is reviewing and discussing the budget. *"Staff does an incredible job of balancing the needs of the course and reacting in a financially responsible way,"* he says. He also enjoys working with and getting acquainted with an incredible team, which includes commission members, City, Golf Course and Pro Shop staff. In the future, Jerry looks forward to conversations on the possibility of a learning center and additional golf amenities as part of the Memorial Park redesign process. He would also like to see the goal achieved with the tree replacement program.

Jerry enjoys golfing, biking, kayaking, tinkering in his shop and the Hawkeyes. His favorite places in Waverly are the Golf Course and the great parks we have.

Thank you Jerry for your commitment to the Waverly Golf Course!

As we finish up another great season at the Waverly Pool, we would like to thank all of the patrons that came out to enjoy the water with us this summer. Sunday, August 14th will be the last day of the 2022 pool season. The pool will be open regular hours through that day.

FAQ: Why don't we mow waterways in Waverly?

The City of Waverly Vegetation Management Department works hard to make the best decisions possible for areas we care for. According to Iowa State University suggestions of waterway care, we treat for noxious weeds throughout the growing season and will either mow or burn these areas one time each year, in the fall or spring. This helps slow down the flow of water and also provides the opportunity for natural prairie growth and habitats. Thank you for your understanding.
