## LET'S TALK TREES

According to Iowa State University Extension and Outreach, **February through March is generally the best time to prune most deciduous\* and ornamental\* trees.**

Special Note: the best times to prune Oak trees are throughout December, January and February.

Do NOT prune Oaks from March through October to reduce the risk of Oak Wilt infections.

Evergreen trees require little pruning, and dead, broken or diseased branches can be removed at any time of the year.

Reasons to clean up after your beloved pet:

1. Dog Poop is NOT a Natural Fertilizer
2. Antibiotic-Resistant Bacteria May be Lurking in Dog Poop
3. Parasites and Bacteria in Dog Poop can infect Humans and Other Pets
4. Poop-borne Pathogens can Spread Disease to Wildlife - disrupting delicate ecosystems
5. Dog Waste Pollutes Water Sources - bacteria can seep into soil and make their way into nearby water sources via runoff, degrading the aquatic ecosystem
6. Cleaning Up After Your Pet is a Reflection of Responsible Pet Ownership
7. It is a nuisance and violates City Code

LOVE IS IN THE AIR...  
scoop the poop - let's keep it

Sweet!
